## Production notes

Please provide a fully functional P.A. and a competent English or Polish speaking in house sound engineer. P.A. system should be able to provide at least 110dB of continuous sound pressure level in the middle of room without distortion. Powerful subwoofers are essential.

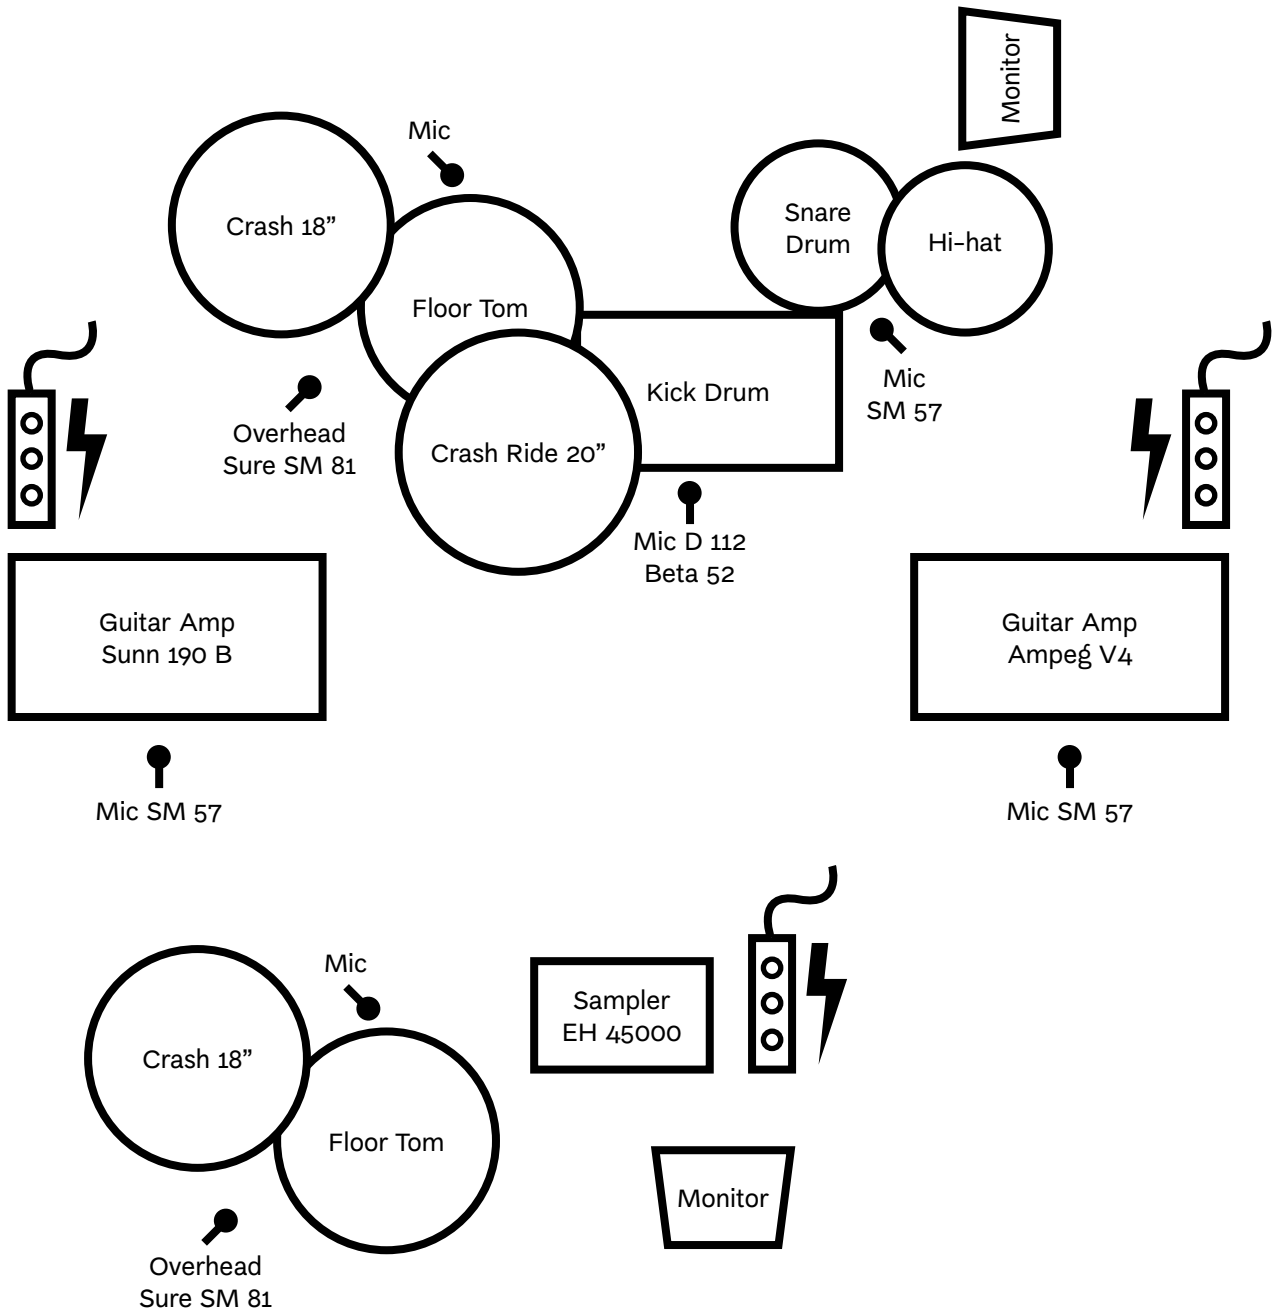

Console must be minimum of 12 channels with minimum 3 sends and preferably Allen & Heath, Midas, Soundcraft, Yamaha or something in that class. Please no Behringer or Mackie consoles.

Microphone set should include :

- Electro Voice RE20 or AKG D12/D20  
or Beyerdynamic M88TG × 1 kick drum
- Shure SM57 × 3 – snare drum, amplifiers
- pair of AKG C414 or Audio Technica 4050/4030 or Shure KSM32  
or any studio grade LDC cardioid microphones – overheads
- some microphone to mount on rack tom
- stereo DI for electronic sounds

The BNNT is at times an abrasively loud band who cannot be restricted by dB limits, please warn all staff working at the venue that The BNNT are a loud band and at no time will the discussion of “please turn down” happen. It is a important part of performance and cannot be compromised.

### Stage setup

For the Stage Scenography we need some tools and objects.

We would like to have materials like:

- 6 extra mic stands
- gaffer tape (black and gray)
- screws, rope and some tools

Please collect it for us at the location.

For the details of the stage scenography and necessary materials please contact: [bnnt@bnnt.pl](mailto:bnnt@bnnt.pl)
